

> Press release

Copenhagen, 3rd of February 2017

www.sensorist.com

Sensorist has an ambitious goal to increase both the visibility and sales of wireless sensor systems for monitoring temperature, humidity and CO₂ in the UK.

Sensorist, therefore have made an agreement with Heronhill Air Conditioning - One of the leading suppliers of specialist air conditioning equipment in UK. The deal will make Sensorist products even more accessible to businesses across the country.

"Through the agreement with Heronhill, we will get a better exposure within the rapidly growing B2B market in UK. It becomes easier for us to introduce new products, and it will be easier to participate in bigger projects. We are confident that this will further strengthen our position in the field of business solutions for wine cellar builders, refrigeration and air conditioning contractors, zoos and museums" says Stig Larsen, Sales Director, Sensorist.

Nigel Manning, Managing Director at Heronhill Air Conditioning adds:
"The agreement with Sensorist is a great development for Heronhill. The Sensorist system complements our existing range of high-end wine cellar and low-temperature air conditioning products. Sensorist have a truly innovative product for wireless monitoring of temperature, humidity and CO₂ for small and large business solutions. We have a complete setup in our offices, we can demonstrate the features of the system either in person or online". There will also be an opportunity to get Sensorist products presented by our Sales Consultants.

The agreement between Sensorist ApS and Heronhill Air Conditioning Ltd. takes immediate effect.

Sensorist in brief

Sensorist is a world leading manufacturer and supplier of award winning wireless high-end temperature, humidity and CO₂ measurement products. Sensorist is located in the center of Copenhagen, Denmark and are selling in to more than 45 countries world wide and have done more than +576 million measurements.
