Copenhagen, 2nd of June 2017

www.sensorist.com

Sensorist gain sales momentum and increase visibility of the wireless sensor systems in Finland.

Sensorist, therefore have made an agreement with Timeless Technology in Finland.

Timeless Technology is a value adding technical distributor providing high-end market leading industrial solutions to corporate customers in Finland. Timeless Technology is focusing on carefully selected niches like wireless sensor systems with a high technology and adds value by being a very skilled and professional distributor with a strong salesforce. The deal will make Sensorist products even more accessible to businesses across the country.

"Through the agreement with Timeless Technology, we will get a better exposure within the rapidly growing B2B market in Finland. It now becomes easier for Sensorist to introduce new products, and it will be easier to participate in bigger projects. We are confident that this agreement will further strengthen our position as the preferred partner in the field of wireless temperature monitoring solutions" says Stiig Larsen, Sales Director, Sensorist.

Kari Ruhanen, CEO at Timeless Technology adds:

"The agreement with Sensorist is a great development for Timeless Technology. The Sensorist products gives us the product we have been looking for to cover the fast growing temperature monitoring market. Sensorist have a truly innovative product for wireless monitoring of temperature, humidity and CO₂ for both small and large enterprise business solutions. We now have a complete setup in our offices, we can demonstrate the features of the system either in person or online. There will also be an opportunity to get Sensorist products presented by our Sales Consultants all over Finland".

The agreement between Sensorist ApS and Timeless Technology takes immediate effect.
